

Remote Expertise Networks

The Remote Expertise Networks (REN) from SmarTECHS provides a simple, effective and proven way for isolated equipment operators and field workers to get dangerous, complex, or confounding jobs done: **permits, inspections, validation, troubleshooting and repairs.**

It's like a master technician in a box ... ready to deploy worldwide in seconds.

BOTTOM LINE

Safety and greater productivity without compromise.

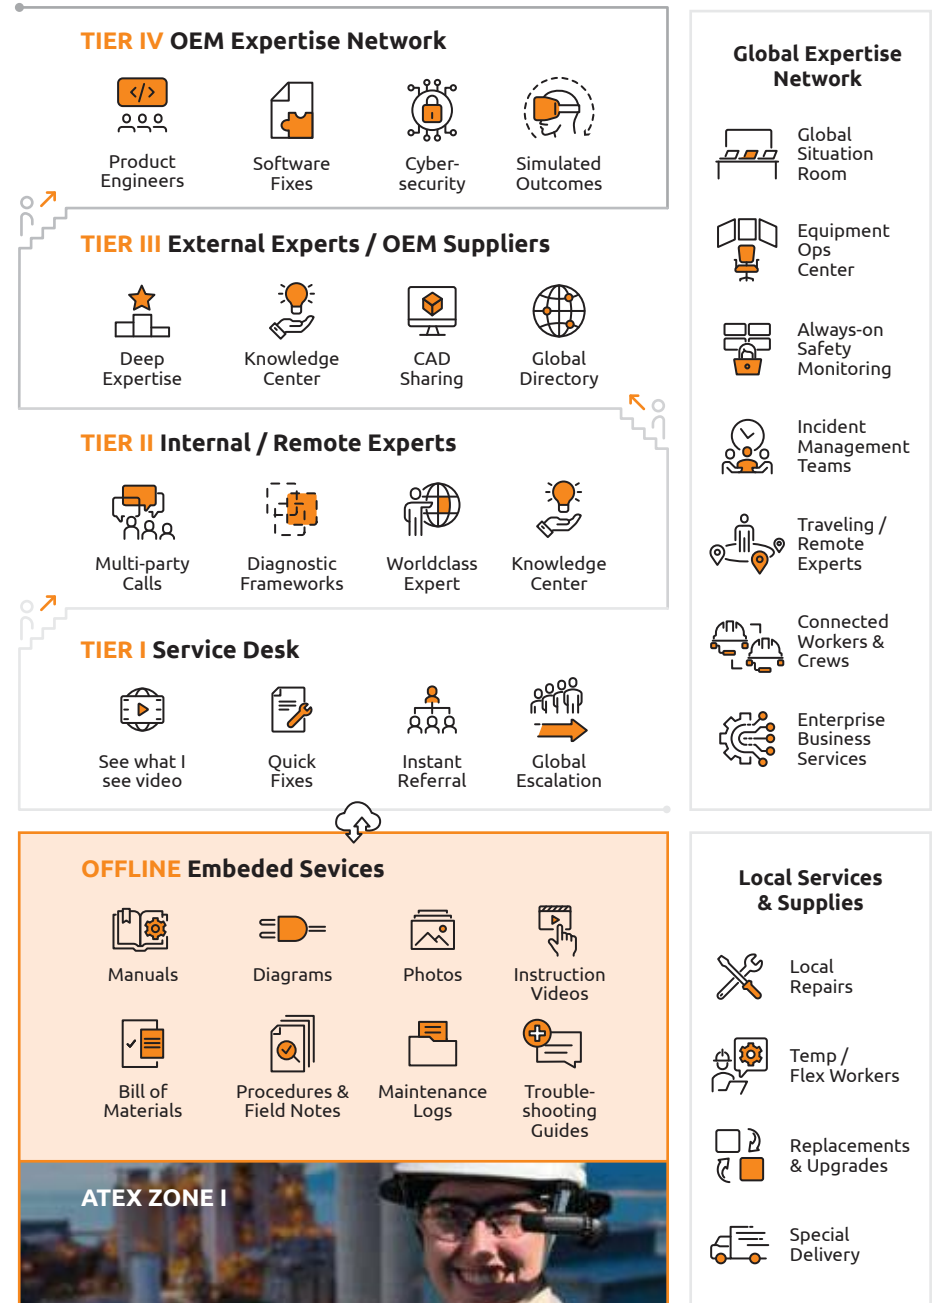

The Remote Expertise Networks from SmarTECHS also enable organizations to capture their scarce mission-critical knowledge and leverage it for training.

OEMs use Remote Expertise Networks to deliver better customer support, improve satisfaction, and deliver new digital services.

REMOTE EXPERTISE NETWORKS

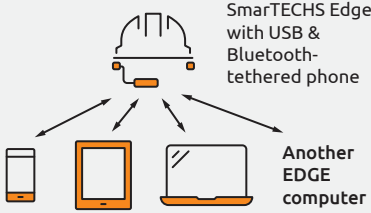

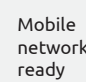

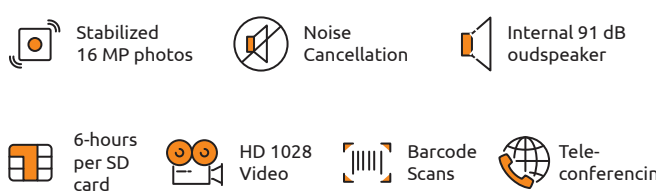

The safest and most productive way for front-line technicians to understand, escalate, determine and restore operations.

PRIMARY USE CASES

- Visual mentoring
- Business continuity on demand
- Seamless service escalation
- Customer co-service of equipment
- Blended collaborative repairs
- Field service operation
- Remote validation and inspection
- Realtime blended troubleshooting
- **More use cases at SmarTECH.io**

Connected Endpoint Devices	 <div> <div>   </div> <div>   </div> </div> <div> <div>  </div> <div>  </div> </div>
Collaborative Web Conferencing	 <div> <div>  </div> <div>    </div> </div>
Scalable Multi-party Escalation	 <div> <div>    </div> <div>    </div> </div>
Live Audio & Video, HD Photos & Scans of barcodes	 <div> <div>    </div> <div>     </div> </div>

DETAILS

HARDWARE

Head-mounted Edge computer

- Ruggedized, IP66, MIL-STD-810G
- Camera with 16 MP 4-axis image stabilization
- Up to 1080p @30fps. VP8 and VP9 codecs
- 256 GB MicroSD, hot swappable
- Full shift battery: 9-10 hours
- WiFi 802.11 a/b/g/n/ac – 2.4GHz and 5GHz
- Bluetooth BT 4.1 LE (Low Energy)

SOFTWARE

Intelligent Assistance Workspaces

- Out of the box, ready to use
- Remote Expertise Networks module
- Internal and external Remote Expert directory

Software Utilities

- Embedded for offline self-services
- On demand to context-relevant content: manuals, part list, explainer videos and troubleshooting guides

INFRASTRUCTURE

- 28 global servers, optimized for fast response times and high availability
- Automated balancing for optimal response time
- File compression and refresh rate optimization based on bandwidth

SUPPORT

- 99.7% service availability
- 24/7 tech support with platinum SLA
